

---

Dear Healthcare Professional,

You are cordially invited to attend:

**Complement Inhibition:  
New insights into the management of gMG**

**November 30, 7:00 - 8:15 PM Eastern Time**

Moderator: Dr. Zaeem Siddiqi

Speakers: Dr. Angela Genge and Dr. Dubravka Dodig

**At the end of this session, participants will be able to:**

1. Appreciate the burden of disease that refractory AChR+ generalized myasthenia gravis (gMG) has on patients, including the impact on daily living.
2. Understand the role of complement in the pathophysiology of gMG.
3. Discuss the role of complement inhibition in the treatment of refractory AChR+ gMG, including recent real-world evidence together with Canadian patient case presentations.

**[CLICK HERE TO REGISTER](#)**

Should you require any technical support or assistance to join the meeting, please contact [help@impetusdigital.com](mailto:help@impetusdigital.com).
