## **CNSF Welcomes our new CEO**

Following a national search, it is my pleasure to announce **Gayle Burnett** as the new CEO of the Canadian Neurological Sciences Federation (CNSF).

Gayle brings extensive health sector leadership to this role, having led health advocacy, strategy, provincial policy development and numerous physician negotiations. She is a creative leader who enjoys working with diverse stakeholders to co-create new initiatives and solutions. She is committed to creating and supporting healthy working environments for health care teams. Her vision and expertise will advance our strategic priorities of Continuing Professional Development, Enhancing Membership Value, and Advocacy to increase awareness of the impact of neurological conditions on individuals, families, communities, and the healthcare system in Canada.

Please join me in welcoming Gayle to our organization. We look forward to the exciting opportunities and successes ahead under her guidance.

Michael D Hill, President, CNSF
