

The Division of Neurosurgery, Department of Surgery, Faculty of Medicine and Dentistry at the University of Alberta, is accepting applications for the position of an Academic Stereotactic and Functional Neurosurgeon.

The Neurosurgery Program at the University of Alberta is committed to the improvement of health through excellence in patient care, leadership in education and research, and in preventative initiatives directed at the promotion of neurological well-being. The Division of Neurosurgery in Edmonton provides comprehensive neurosurgical services for a wide geographic area serving a population of over two million people. Every subspecialty within in Neurosurgery is represented in the Division. The Division is supported in its work by state-of-the-art neurosurgical technologies including a 3T intraoperative MRI operating theatre, and a Gamma Knife unit.

The Division is recruiting an academic Stereotactic and Functional neurosurgeon at the Assistant Professor rank to commence July 2025. The position will be split between a 50% commitment to clinical practice, and a 50% commitment to academic activities.

The successful candidate's clinical practice will focus on Stereotactic and Functional neurosurgery, covering: Deep Brain Stimulation (DBS) for movement disorders/epilepsy, surgery for trigeminal neuralgia /chronic pain / spasticity, and general/ functional stereotactic radiosurgery. Clinical practice will include participation in a general neurosurgery on call program and will incorporate non-classroom teaching of neurosurgery residents and medical students. The 50% academic commitment will primarily be devoted to research (at least 30%), with considerable freedom given to the successful candidate's vision in developing a functional neurosurgery research program (basic or clinical science). Classroom-based teaching and administrative duties will make up the remainder of the academic commitment.

Consideration of applications will continue until the position is filled. Interested applicants should arrange to have a current curriculum vitae, a two page a statement of research interest and the names of three references forwarded to:

Dr. Vivek Mehta  
Divisional Director, Neurosurgery  
2C3.76 WMC; 8440 – 112 Street  
Edmonton AB T6G 2B7  
Email: [vivek.mehta@ahs.ca](mailto:vivek.mehta@ahs.ca)

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. University of Alberta hires on the basis of merit. We are committed to the principle of equity in employment. We welcome diversity and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities, and Aboriginal persons.

Qualifications:

Applicants must hold an MD or equivalent, have completed residency training in Neurosurgery, and be eligible for licensure in the Province of Alberta. The successful candidate must hold the Royal College of Physicians and Surgeons of Canada Fellowship in Neurosurgery. Strong preference will be given to applicants who have completed a recognized fellowship in Stereotactic and Functional Neurosurgery. Preference will also be given to applicants holding a Masters' Degree or PhD, and/or who have clear evidence of research productivity especially in Stereotactic and Functional Neurosurgery.
