JOB FOR POSTING, EEG Technologist and Neurophysiologist
Calgary Foothills Medical Centre
Calgary, Alberta

We have 2 new Neurological Sciences vacancies in Calgary, at Foothills Medical Centre, a specialized referral centre for Southern Alberta, S.E. British Columbia, and parts of Saskatchewan. It is home to the largest integrated teaching and research collaborations in Canada.

The EEG Technologist will perform either EEG recordings or Nerve Conduction Studies and may support the Seizure monitoring unit and more, as well as train in other modalities.

As a Neurophysiologist, you will be responsible for the development of the Intraoperative Neurological Monitoring programs, and provide Intraoperative neuromonitoring for a variety of Orthopedic, Neurosurgical, ENT and Neurological procedures as well as the performance and interpretation of advanced multimodality IONM (Intraoperative neuromonitoring) studies.

Apply by March 31st: <https://careers.albertahealthservices.ca/jobs/search/118402140>
