
Neurologist with Sub-specialty Training in Headache Management – Calgary, Alberta

The Opportunity

We are seeking a full-time, fee-for-service **Neurologist with sub-specialty training in headache management** to join our collegial team. The successful candidate will offer both headache-focused and general neurology services, benefiting from an established patient base and a supportive, multidisciplinary environment.

The Department of Clinical Neurosciences (DCNS) at the University of Calgary's Cumming School of Medicine (www.ucalgary.ca/dcns/) provides a dynamic, collaborative environment renowned for clinical excellence, research innovation, and outstanding education. DCNS neurologists, neurosurgeons, psychiatrists, and neuroscientists work closely with colleagues in neuroradiology, neuropathology, and other allied specialties to deliver comprehensive neurologic care.

Calgary is a diverse, welcoming city offering exceptional urban amenities—arts, culture, cuisine, sports—and easy access to the stunning Rocky Mountains. With a robust healthcare infrastructure and an academic setting committed to innovation, this position offers the opportunity to excel in both clinical and academic arenas.

Key Responsibilities

Ambulatory Care:

Provide comprehensive headache and general neurology outpatient consultations and follow-ups at the South Health Centre.

Collaborate with multidisciplinary teams to deliver patient-centered, evidence-based treatment plans.

Inpatient & Consultation Services:

Deliver inpatient neurology services and consultations at up to four adult hospitals in Calgary.

Participate in approximately 5-7 weeks of service per year, each including a weekend commitment, plus an additional ~2 nights per month on call covering two hospitals.

Teaching & Academic Engagement:

Teach and mentor medical students and neurology residents in both clinic and hospital settings.

Attend and contribute to departmental grand rounds, Division of Neurology meetings, and other academic activities.

Research & Quality Improvement:

Participate in clinical research initiatives, contributing to improved patient care and the development of new treatment approaches.

Engage in quality improvement projects that support ongoing service enhancements and improved patient outcomes.

Qualifications & Requirements

Education & Certification:

MD (or equivalent), Neurology residency completed, and Specialist Certificate in Neurology from the Royal College of Physicians and Surgeons of Canada.

Licensure & Expertise: Eligibility for medical licensure in the Province of Alberta.

Sub-specialty training in headache management required.

Professional Attributes: Strong clinical acumen in both headache and general neurology.

Excellent communication, teamwork, and interpersonal skills to thrive in a multidisciplinary, patient-focused environment.

Commitment to academic activities, including teaching and research, and active participation in departmental initiatives.

Why Join Us?

Clinical Excellence: Work in a dynamic health system with access to top-tier facilities, advanced diagnostics, and a robust referral network.

Academic Environment: Benefit from a supportive academic setting that encourages professional growth, teaching, and research involvement.

Team-Based Care: Join a highly skilled, collegial team dedicated to improving patient outcomes through collaborative, evidence-based practice.

Lifestyle & Location: Enjoy the cultural richness and vibrant city life of Calgary, combined with unparalleled access to outdoor activities and the Rocky Mountains.

Application Process

Interested candidates are invited to submit the following:

Current Curriculum Vitae (PDF)

Three Letters of Reference

A One-Page Statement outlining clinical interests, teaching philosophy, research goals, and how your experience aligns with the role.

Applications & Inquiries:

Attn: Dr. Bijoy Menon

Email: bkmmenon@ucalgary.ca

Review of applications will begin immediately and continue until the position is filled. While all qualified candidates are encouraged to apply, Canadian citizens and permanent residents will receive priority.
