

Career Opportunity in Neurology

The Division of Neurology at William Osler Health System is seeking an Associate Neurologist to join the Neurology team at either Brampton Civic Hospital or Etobicoke General Hospital to provide neurological care of admitted patients. The position is a blended hospital and community practice and offers the possibility of working within a well-staffed, hospital-based electrodiagnostic clinic, and growing stroke prevention clinic. The selected candidate will be expected to provide general neurology service at least one day per week at Osler and participate in the on-call schedule (approximately 1 week in 4 and 1 weekend per month). Neurologists who have the qualifications may also have opportunities for EMG at either Brampton Civic Hospital or Etobicoke General Hospital and to interpret a proportion of the hospital's EEG studies. The neurologist will need to establish his/her own outpatient practice in the community. As Osler transitions into an Academic Centre, there is anticipated growth for hospital-based outpatient general neurology clinics.

Qualifications

The candidate must have a Certificate of Registration to practice from the College of Physicians & Surgeons of Ontario and have certification in Neurology from the Royal College of Physicians & Surgeons of Canada. Certification by Canadian Society of Clinical Neurophysiologists (CSCN) is required in order to work in the Electrodiagnostic clinics. The position requires excellent communication skills in English. Additional languages are considered an asset as we serve a highly diverse population.

About the Program

William Osler Health Systems offers one of the busiest EMG clinics in the GTA. Our clinics are staffed by technologists using up to date electrodiagnostic equipment. Dictations systems allow for real time-editing and instantaneous release of notes. EEG readings can be performed in hospital or at home. Our monthly Neurology Rounds and NeuroRadiology case rounds provide excellent neurology CME and will remind candidates exactly why neurology is the most fascinating field of medicine. Osler services one of the most rapidly growing cities within the GTA. There is no shortage of work, and clinics will provide continued and stable income to support a long and very fruitful career.

About Osler

William Osler Health System (Osler) includes Brampton Civic Hospital, Etobicoke General Hospital, and Peel Memorial Centre for Integrated Health & Wellness. Serving 1.3 million residents of Brampton, Etobicoke and surrounding communities within the Central West region and nationally recognized for its commitment to patient safety. Osler is Accredited with Exemplary Standing, the highest rating a Canadian hospital can receive.

Osler is an integral clinical partner in the development of Ontario's New Medical School, in partnership with Toronto Metropolitan University (TMU) and as part of its transition to an Academic Health Centre. In addition, we are an affiliated Academic Community Teaching Site for the McMaster University Michael G. DeGroote School of Medicine; Family Medicine Program, and there is ample opportunity to participate in clinical education with medical students and residents.
